Used this software a lot to record my gameplay, then upload it to youtube. This is better than Frap because it uses multiple cores on the processor.. It's too short & easy. Also some of the puzzles might blind you with the colors. I like maze puzzles but I would buy this game as cheap as possible. I would say about 30 minutes or less of content. It's an easy 100% completion though so I recommend it if that's what you are looking for.. [Short Review] The game is exactly what it looks like; a retro platformer with retro graphics (look at the screenshots) and retro soundtrack. The game itself is very solid and physics are well built but what really makes this game worth to be in your library is how challenging it is; just like those old school platformers where you may die once and once again and then get a ragequit (5 minutes break) and then come back to try it again.

Pros:
-It's a real challenge.
-Nice retro graphics.
-You touch a spike, you lose the oxygen and then you die lol.
-It's cheap.

Cons:
-Forget about it if you have no patience.
-Enjoyable for old platformers lovers, other public may find it boring.

Recommended (8\/10). Never before has the horror tag been so relevent to a game.. New platformer classic is born! This game is an addicting as it gets. Controls are solid and difficulty is right in the ball park, wanting to try once more. Graphics are well made pixel art and it works like a charm. And I love that the game has very cryptic and mysterious feeling. This game is a solid oldschool platformer with a own twist. I can recommended this to anyone that likes old school platformers!. Do you like wild bunny Racism and over the top people shouting slurs at you while kicking cars as a bunny who drags his butt all over?? Peak video game development. Buy now. By day 743 i killed my family but i won...

A classic premise that works so well translated for a modern audience. The gameplay is tough and therefore addictive, and online scoreboards serve to make it more so! I can see it being a party favourite :D

The audio matches the gameplay brilliantly, though it'd be nice to see some additional music styles in future!. Love it. Best title game for a game!. Good heist game, but PAYDAY 2 is better and it has better graphics.. before we get into this like many other reviews i have been playing this when it was a browser game when i was around 10-12 when making accounts was free and then another company bought the rights to the game and i lost all my progress i got like 4-5 skins then lost it coz of the stupid verification steps and 12 year old me did not understand it and gave up it was fun while it lasted, anyway i bought on steam and i was like this should be a good one, i was correct it was a good game but i wasn't having as much fun as i thought i would have so i refunded but if you're like 10 or so and dont like fortnite but want some cartoon type FPS game like 12 year old me then this game is perfect 10\/10
if you're a teen and like real FPS better off getting a gaming PC and getting Battlefield and COD.. Out of the pass: "I'm going to complete it 100%." 2 weeks later: "Add $30 on Steam."
