- new game hackdroid Did HTC set off a gadget-making revolution by releasing the first Android-powered smartphone? It looks like it. Best news: Our new Android phone is the fastest-selling phone ever. When we started shipping the HTC Hero in late January, we sold nearly half a million phones in six weeks. The most popular model on the most popular carrier in the US. Not bad! The most depressing news: The Android community wants a second Droid. With so many Android phones already on the market, it may not be that easy to get a second chance to get in on the ground floor. With the iPhone 3G's wild popularity, it may prove that the iPhone does indeed have staying power. But there's still hope! Today, the jury is still out. For now, it's just a field of opinions and theories. As for the new 3G version of the Android-powered HTC Droid Incredible, we're just waiting for the goods to start rolling off the assembly line. But with its recent announcements, it appears HTC is ready to really build this

---

thing. Let the speculation begin. An analysis of people living with HIV in the province of Catalonia (Spain) in 2006. To describe a sample of people living with HIV (PLWH) in Catalonia in 2006 and compare it with other European regions. A descriptive cross-sectional study using data from the Catalan AIDS Register and the Spanish AIDS surveillance system. PLWH diagnosed in Catalonia in 2006 (n = 2031) were included in the analysis. The median age of PLWH was 43 years. A significant majority of PLWH were heterosexuals (75%), while about a quarter of PLWH were male-to-male sexual contacts (MSM). PLWH were mainly diagnosed at an advanced clinical stage (93%). PLWH with the most serious clinical conditions were MSM, the chronically ill, and those with a history of hospitalization for AIDS. The median CD4 count was 167 cells/mm<sup>3</sup> and the median HIV RNA load was 4.9 log<sub>10</sub> copies/ml. In the year 2006, 1.1% of the PLWH were injecting drugs. A total of 732 PLWH (37%) were diagnosed in the previous year and, of these, 1.6% had died. Nearly three-quarters of the PLWH lived in the Barcelona metropolitan area (74%), while the rest of the PLWH resided in other cities of the region. The proportion of PL
